RELIABLE, ALL-ROUND AND QUALIFIED

When you need a hose, you need it now. And you want the best hoses in the world for the safe transfer of mineral oil, vegetable oil, chemicals, LPG, LNG or slops. Meanwhile your operation has to continue to run smoothly and you want to eliminate any potential safety or environmental issues; you want to reduce downtime and keep your productivity levels high. With over twenty years of experience LTT is your reliable partner in hose management. We are known for our fast delivery, service and expertise. We work around the clock anywhere around the world.

CUSTOM-MADE HOSE MANAGEMENT

LTT is qualified to offer you custom-made expert solutions for flexible hoses and hose assemblies as well as the maintenance. Our technicians can carry out repair work in site or in our specially equipped workshop. We ensure you that all of our products are in stock, at any time, damage-free, cleaned, tested and certified! A special lease construction allows you to outsource your complete hose fleet to LTT and benefit from our one total package service: you only receive one invoice with the agreed price after the job is done. We will save you time and money by providing you with the newest products available.

SAFETY FIRST

Successfully audited by leading oil majors. We have a well-deserved reputation when it comes to quality, integrity, reliability and safety. We provide our operational teams with the best support and the best equipment. We are fully compliant with industry standards and health and safety standards. And we ensure that our operations are conducted in accordance with all relevant national and international maritime legislation, local regulations and industry best practices. LTT holds several certificates with Bureau Veritas and product certificates with Gutteling, producer and supplier of composite hoses.

**LTT ALWAYS PROVIDES YOU WITH THE NEWEST PRODUCTS TO SAVE YOU TIME AND MONEY.
AND OF COURSE YOU ALWAYS GET ONE TOTAL PACKAGE AT ONE PRICE, NO MULTIPLE INVOICES.**

BEST EQUIPMENT IN THE WORLD

LTT offers you the best equipment in the world. Whether you are in need of hoses, fenders, pumps, heating or special equipment, LTT is your reliable partner. The exploitation/rent out of high quality composite, stainless steel or rubber hoses and numerous types of fenders has always been our core business. We hold a watertight reputation for the rent out of submersible and inline pumps for the industry, maritime market and the offshore industry and are the proud owner of the best heating and special equipment in the world. Steam boilers, heat exchangers, steam hoses and additional equipment or filtration units to inert gas generators, tank-cleaning equipment, portable heating installation or generator; you can rely on LTT to meet your (special) needs.

SHIP-TO-SHIP TRANSFER

LTT also delivers the highest standards of service and safety in ship-to-ship transfer and offers you a complete package, which includes hoses and fenders and a fully certified mooring master. Our compliant mooring masters carry out all operations in strict accordance with all safety guidelines and requirements as mentioned in the OCIMF Ship to Ship transfer guides for Petroleum, Chemicals and liquefied gases. One of our core strengths is smooth communication between STS activities throughout the berthing and loading operations so tensions on hoses, liquid spills and other incidents are prevented.

WORLDWIDE SERVICE

Our well equipped workshop and rental fleet with skilled staff is at your service for 24/7 assistance on a worldwide scale. The LTT main office is located at the port of Rotterdam area, The Netherlands, and we carry offices and workshops in Denmark, USA, Singapore, Turkey, Poland and Malta.
